THE WISE MOVE

TOP TIPS FOR SELLING YOUR HOUSE

Selling your property quickly and gaining the best possible price is the priority for any prospective seller. The key to achieving this is to present your property to its best potential. This will help the buyer to connect with the property, to picture themselves in it and then to make that all important offer.

Our top tips for securing a quick sale are listed below:

Kerb appeal

People form an immediate opinion of a house based on how it looks when they see it from the outside. Maximise this opportunity by making the appearance of the house as attractive as possible. Ensure that your garden is kept tidy, it will look larger and in need of less maintenance than an untidy one. Put pots of flowers at your door to add a nice welcome. A fresh coat of paint can work wonders to improve the appearance of your front door and window sills.

De-clutter

People need to be able to imagine how the house would look with their possessions in it. To allow them to do this, you need to declutter, but not completely depersonalise. Make sure the interior of your home is free of clutter. Remove bulky furniture and clear out unwanted ornaments, books and toys.

Complete DIY jobs

Buyers do not want to buy a house which requires a lot of work done to it. And so it is important to carry out all the DIY jobs you have been putting off: change the lightbulbs, fix the gate, replace missing handles. You might even want to consider a fresh coat of paint throughout the house.

Pets

Buyers will love them, hate them, or be allergic to them so make sure that your pets are out of the house during viewings and ensure that you freshen up your home to remove any pet odours.

Viewing the property

If you are showing people around your home try to be as helpful as possible and answer all their questions truthfully. Give local Information about the community and transport and also any history about the property which will help people imagine what it would be like to live there. Give ideas about the potential of the property i.e. extending into the attic, and describe how others nearby may have done this.

Light and airy

Wall mirrors make a room look much bigger and lighter. Consider putting some up, especially in smaller rooms or hallways. Clean windows inside and out, and replace any broken light bulbs. Making the place feel light and airy makes rooms feel bigger and the property more attractive. Ensure that you have lamps on in any dark corners. Putting a soft lamp in the bathroom can create a warm glow.

ADVICE TO PEOPLE BUYING PROPERTY

There are very few purchasers who buy the home of their dreams and do not want to change anything.

All too often when you view a property you see it as it is, not as what it could be. The best way to view a property is to use the viewing record page in this guide. List all the positive and negative points of the property and your feelings about it.

Then in your own time sit down and work out how much it will cost you to alter the property to your own tastes and requirements. The businesses featured in this guide are there to help you do this.

At the end of the day the choice is yours, however, there have been many property transformations which have taken a less than perfect property and turned it into a home anyone would be proud of.

Making your business...

It is a popular misconception to believe that accountants are only needed by people who are in business.

In today's environment where financial legislation is subject to change on a regular basis, an accountant can prove invaluable.

This applies whether you operate a business or indeed are a member of the general public.

Nicola Bowker & Co Chartered Accountants is an accountancy firm providing financial and strategic business services to entrepreneurial start-ups and small to medium-sized companies.

Individuals with both UK and Manx tax affairs need careful guidance through the tax maze too, especially those wealthy individuals looking to preserve that wealth.

Accountants such as Nicola Bowker & Co Chartered Accountants have many years of knowledge and experience and are more than able to help you complete all this paperwork.

MAGUIRE ELECTRICAL SERVICES LTD

Maguire Electrical Services Ltd was founded in 2017 but Dermot has been an Electrician for more than 30 years – cutting his teeth in Dublin, Ireland where he trained; moving to London in the late 80's where he eventually became (for 13 years) Chief Electrician at Madame Tussauds ...and then, having worked for himself in London for a couple of years - Dermot opted for a change of scenery and moved with his wife and young son, to the Isle of Man in early 2007.

Dermot worked for a company for 10 years (with whom he still closely works) but then decided to work for himself again – and Maguire Electrical Services Ltd was born.

Dermot is reliable and conscientious. He has a good reputation and is always happy to take on work – Island-wide, no matter how small the job may be. He works closely with Just Care Products Ltd, doing their servicing work and loves a challenge. If you need to contact Dermot, you can reach him on 409982 or by popping in to Just Care where he is occasionally found beaver away in the back office doing paperwork, quotes and so on.

Dermot's mother-in-law, Carol, came up with the phrase for him. Faulty Wire? Ring Maguire! this encapsulates Dermot to a tee!!

REMEMBER – YOU CAN REACH HIM ON 409982. FAULTY WIRE? RING MAGUIRE!

WHAT DO YOU NEED TO KNOW ABOUT THE SALES PROCESS?

The process of selling a property may to many appear complicated, lengthy and drawn out, however, the following paragraphs will help you to better understand what happens.

Before you take the decision to put your property on the market, you would be well advised to instruct an advocate or conveyancer to handle your conveyancing.

The majority of people will not speak to an advocate until they have received an offer, however this can have the effect of delaying the entire process.

When you have received and accepted an offer on your property, the buyers advocate will send a letter confirming that your buyer has mortgage approval in principle.

As part of the conveyancing process, you or your advocate may be asked questions about your property or you may be asked to produce documentation supporting any information you provide.

Your buyer's advocate will also commence the legal and local authority searches legally required for a sale.

These will confirm your legal right to sell the property which is called 'Evidence of Title' and will also confirm the boundaries of the property.

Once all the searches and other details have been agreed, a contract for the sale will be put together and will be exchanged, this is known as 'the exchange contracts.'

This is also the point at which a completion date will be arranged with the buyer.

On the agreed completion date, the appropriate funds will be transferred from the buyer's advocate to your advocate and when this has been confirmed you will pass over the property keys to your buyer.

Never hand over the keys until your advocate has told you that the transfer of funds has been completed.

You should never at any time attempt to conceal information and should answer any questions honestly and to the best of your knowledge.

Any communication must be through your advocate and your estate agent. Never communicate with your buyer's advocate or with your prospective buyer.

The process is involved and it needs to be if your best interests are to be safeguarded. Property Wise are here to help every step of the way.

WHAT COSTS CAN WE EXPECT IN THE SALE OR PURCHASE OF A RESIDENTIAL PROPERTY?

It is inevitable that when you buy or sell a property you will attract costs and you will find listed below the majority of those applicable.

The actual amounts will vary and are dependent upon the price of the property being sold or purchased.

Selling a Residential Property

Estate Agents Costs – These are calculated as a percentage of the sale price. When you first put your property onto the market, your agent will have agreed with you a percentage commission which would include all the marketing and advertising activity associated with selling and promoting your home.

Legal Costs – These are associated with all the work your Solicitor will carry out during the conveyancing process and will be agreed before you instruct them.

Purchasing a Residential Property

Deposit – Once again a variable, however, this is the amount your mortgage provider will require you to pay as a down payment in order to obtain your mortgage.

Mortgage Valuation/Survey – This is an area you need to think about as you have three options. Property Wise will be happy to recommend a local independent Surveyor to advise you further.

- The Valuation Report only covers the mortgage provider. It will not tell you about any structural defects or other problem areas which could undermine your investment.
- The HBSA is a more detailed report and whilst costing a little more does provide a much more in depth analysis of your proposed purchase.
- The Structural Survey is advised for older property or in areas where there are known problems, such as subsidence.

Property Wise will be happy to advise you.

Mortgage Booking/Application Fee – This is a fee levied by your mortgage broker for setting up the mortgage and acting on your behalf. The cost can vary, but will be identified at the start of the process.

Rateable Value and Rates Payable – It is advisable to make a note of the Rates Payable on a property that you are interested in as they vary from area to area. Property Wise will be able to get this information for you.

There may be other costs associated with the purchase of a property, however, the ones listed above are the major areas you should be aware of.
